## **PAYWORKS**

Functionality for Payroll, HRIS Time & Attendance and Scheduling

### **OVERVIEW:**

PayWorks

50 Ronsons Drive  
Suite 180  
Toronto, ON M9W 1B3

Contact: Sean Russell  
Corporate Sales Associate  
phone: 416-242-4997 EXT. 413  
Fax: 416-242-5385  
mobile: 416 882-0781  
email: [sean.russell@payworks.ca](mailto:sean.russell@payworks.ca)  
web: [www.payworks.ca](http://www.payworks.ca)

online help: [www.payworks.ca/help](http://www.payworks.ca/help)  
payroll guide: [www.payworks.ca/guide](http://www.payworks.ca/guide)

Year founded: 2001

How many employees in your company:

Customer Service Team:

Are you a Public or private company? Private Canadian company – head office on WPG

Provide a brief history of your company.

What is your primary business focus?

For how many years has the system you are offering been released?

How many HRIS/payroll clients do you have? 6000

What is the average size of your customers?

**FINANCIAL:**

What is your company's annual sales/revenue?

How do you recognize revenue?

What percentage of your organization's revenue come from HRIS/payroll customers?

What percentage of your organization's revenue do you invest in Research and Development (R&D)?

What percentage of R&D is specific to your HRIS/payroll product?

Are there any outstanding lawsuits against your company? If so, please explain what impact an unfavorable outcome would have on the company.

**TECHNOLOGY/ARCHITECTURE:**

Provide a brief overview of your products with a summary of the functionality. Indicate if the product was developed by your company or purchased.

What is the core product of your business?

What separates your product from your competition?

Provide an overview of your system architecture.

Describe your workflow services.

Describe your customization and extensibility capabilities.

Describe your system's ability to have customers "configure" the system vs. having you "customize" the system to meet their needs.

Describe your security architecture, including any significant failures, breaches or issues encountered in the last five years.

Define your system architecture, as well as hardware, and "other" software requirements.

Who are your technical partners?

Provide a description of your company's disaster recovery options.

Describe how your organization provides periodic system performance evaluations for all installed applications.

How frequently are these evaluations done and what is the cost?

How does your company stay current with technology?

[CompareHRIS.com](http://CompareHRIS.com)

How many concurrent users can your product support?

What network operating systems are supported?

What type of network does your web module utilize?

How is system auditing implemented in the application? Is this server side or client side?

Does the proposed system support XML web services?

Describe your multi-layered architecture for scalability and extensibility.

Detail the application response times, benchmarks for processes such as payroll processing, screen navigation, report generation, etc.

Describe how your system complies with applicable federal, state and local laws, regulations or ordinances.

Please provide the methods supported for disaster recovery and data archiving.

**PRODUCT DEPLOYMENT:**

- Do you offer your products as license, in a hosted environment, or both?
- If you offer a hosting model, what is your target market?
- If you offer a hosting model, why should we select it?
- If you offer a hosting solution, what is the data center and network infrastructure?
- If you host the application, what types of technical resources are required?
- Provide a brief description of the security measures you provide in your hosting environment.
- If data centers are physically secured, explain the method/technology used.
- Does your hosting solution include a guaranteed level of system performance, such as sub-second response time?
- Describe your customer support process for application hosting customers.
- If hosted, what control would we have with making application modifications – screens, tables and fields?

**PRODUCT OVERVIEW:**

- Provide a brief overview of your product offerings.
- How do you differentiate yourself from your competition?
- Who are your product partners?
- How do you stay current with changes in human resources?
- What enhancements are planned for your product over the next three years?
- Please specify the name and version of the HRIS/payroll system considered in this RFP.

**PRODUCT FUNCTIONALITY**

Please use the following matrix as a key for responding to the functionality tables in the RFP.

Response Code	Description
Y - Existing	Feature is delivered as standard functionality in the proposed version of the software and can be demonstrated by the vendor.
F - Future *	Feature is not currently included but will be available in a future release. Please indicate time frame (e.g., 12 months).
	Not included. Tools are provided for customization at no additional cost.

C - Customer Customization *	
V - Vendor Customization *	Not included. Vendor provides customization at an additional cost.
T - Third Party *	Feature is provided by a third party partnering arrangement. Indicate any preferred partner agreements.
N - Not Available	Requirement can not be met.

**ENTERPRISE STRUCTURE:**

How does your HRIS/payroll system support multiple companies?

How does the system handle acquisitions and mergers? Specifically, what is required to add a new company to the system?

Describe employee transfers between and/or within companies.

Describe how a cost center [job number / activity number] is added and deleted in your system.

	Requirements	Code	Comments
1.	Supports multiple companies in one database		
	Reports on actual from check history		
2.	Provides for client defined organizational levels		
3.	Provides employee searches by:		
4.	Employee Number		
5.	Last Name & First Name		
6.	Organizational Level		
8.	Company		
9.	Location		
10.	Status		
11.	Job		
12.	Pay Group		
13.	Department Manager		
14.	Supports multiple languages - French		
15.			
16.			
17.			
18.			
19.			
20.			
21.			

**Organization Structure**

Explain how/if your system creates organization charts.

Describe how your system maintains associate "report to" data.

Describe how your system handles/manages large reorganizations.

	Requirements	Code	Comments
1.	Provides ability to export data to an organizational charting application.		
2.	Structures the organizational chart based on the reporting relationships defined for each associate.		
3.	Provides an on-line organization or report to chart.		
4.	Establishes new organization entities (i.e., companies, cost centers, etc.) without vendor professional services.		
5.	Adds/changes organization entities and easily transfers associates within and/or across entities (including companies).		
6.	Manages organization restructuring including position control and salary changes.		
7.	<i>Provides the ability to establish exports to create organization charts for:</i>		
8.	Companies		
9.	Locations		
	Pay groups		
10.	Departments within company		

**RECRUITING AND APPLICANT MANAGEMENT:**

Provide a brief description of your recruiting and applicant management system.

	Requirement	Code	Comments
1.	Communicates automatically with job boards.		
2.	Posts internal and external jobs to company Internet site and company intranet site with effective dates.		
3.	Has a requisition library of job templates that can be utilized when creating requisitions.		
4.	Tracks expenses by applicant/candidate level and associate them with a specific requisition or a general recruiting activity.		
5.			
6.			
7.			
8.			
9.	Integrates seamlessly with standard e-mail systems		

	Requirement	Code	Comments
	(Microsoft Outlook, Lotus Notes) for applicant/candidate activity for hiring managers and recruiters.		
10.	Allows administrators to schedule interviews, notify interviewers of times, locations and topics to cover.		
11.	Distinguishes applicant/candidate status for internal or external candidates.		
12.	Associates applications and resumes to a specific requisition without having to change screens/databases.		
13.	Has history that consists of one candidate record with all the associated recruiting activity regardless of the number of requisitions.		
14.			
15.			
16.			
17.			
18.			
19.			
20.			
21.			
22.			
23.			
24.			
25.			
26.			
27.			
28.			
29.			
30.			
31.	Has embedded workflow for approvals based on company-defined process including requisition approval, offer approval, and new hire approval.		
32.	Allows users to attach documents to an applicant/candidate record.		
33.			
34.			
35.			
36.			
37.	Increments requisition numbers automatically or entered manually.		
38.			
39.	Integrates with third-party screening services including: criminal background check, drug testing and assessments.		
40.	Allows applicant/candidate to choose if he/she would like to be alerted when a future position becomes available based on qualifications.		
41.	Generates offer letters containing all compensation		

	Requirement	Code	Comments
	options to applicant/candidate		
42.	Job openings will track the requisition number, status and reason for the opening		
43.	Job openings will include employment information including FLSA type, salary range, and full/part time indicator.		
44.	Job opening will include education and skill requirements.		
45.	Assist in the creation of and house job descriptions.		
46.	Job opening will include Metropolitan Area and location information.		
47.	Generates reports on all fields that exist in the database.		

**HIRING:**

Describe your employer configurable new hire workflow.

	Requirement	Code	Comments
1.	HR and manager new hire/rehire checklist ability, by position, with check-off ability as tasks are completed (for example, offer letter has been sent and received).		
2.	Provides ability to automatically notify other areas of organization of new hire (security, payroll, etc.)		
3.	Provides ability to automatically notify new hire of activities they need to complete and remind them if they don't do them in a timely manner.		
4.	Manager is prompted to assign correct property to the employee.		
5.	Ability to enter new hire before start date (effective dating) and new person will not appear on org charts until effective start date.		

**Termination:**

Describe your employer configurable termination workflow and how it supports termination of employees and independent contractor assignments.

How is your system used to notify appropriate areas of the organization (security, IT, payroll) that an employee or independent contractor has been terminated?

	Requirement	Code	Comments
1.	Enables manager self-service request for termination workflow.		
2.	Tracks terminations by reason (e.g. discharged, better opportunity, etc.), date, rehire eligibility, COBRA		

	Requirement	Code	Comments
	election.		
3.	Can the termination workflow be different based on the termination reason, or other termination criteria?		
4.	Maintains exit interview information.		
5.	Can automatically cancel specified employee benefits upon termination.		

	Requirement		
1.	Provide on-line support/instructions for completion of routine tasks.		
2.	Establish new organizational entities (e.g., companies, cost centers, and other variables) with no IT or programming required.		
3.	Add/change organizational entities and easily/effectively transfer employees within and/or across them.		
4.	Maintain employee demographic data for all employment-related details (e.g., birth date, employee number, gender, hire date, contact information).		
5.	Maintain ethnic, visa, and I-9 related data.		
6.	Maintain marital, family, and dependent/beneficiary related and tax-related elections.		
7.	Maintain historical data for current/former employees (e.g., names, employment, job/assignments, performance ratings, status, and pay).		
8.	Maintain audit trails of employee file and data updates by date, time, and origin of update.		
9.	Generate, identify, and track employees by unique employee number. Track Social Security Number for U.S. based employees.		
10.	Maintain language, education, and certification data.		
11.	Establish jobs/roles/positions and all relevant details.		
12.	Maintain data for all job-related details (e.g., grade, exemption status, EEO code, salary, job family).		
13.	Make simultaneous changes to large employee groups (e.g., new hires, salary changes, transfers).		
14.	Enable effective/future dating of pending transactions/events, and maintain transaction history.		
15.	New hires automatically routes approval based on company's hierarchy.		
16.	Routes job/salary changes electronically for approval based on user defined approvals.		
17.	Managers can view and change employee salary information with workflow.		

	Requirement		
18.	Managers can submit new hires.		
19.	Managers can run reports.		
20.	Managers can create ad-hoc reports based on security access.		
21.	Managers can view employee training and employment records.		
22.	Progressive disciplinary actions can be tracked and reported.		
23.	E-mail alerts can be generated based on system or user defined events.		
24.	Data/transactions submitted by managers automatically validate for accuracy and completeness.		
25.	Life-to-date history on all employee fields.		
26.	Audit trails for all additions, updates and changes.		
27.	Retains employee status code history.		
28.	Narrative history (e.g., disciplinary actions, grievances).		
29.	No limit to historical data captured.		
30.	Unlimited user defined fields.		

**COMPLIANCE:**

**As human resource regulations change, how do you ensure your clients stay in compliance?**

**Explain how your system maintains OSHA logs.**

**Describe how the software facilitates the maintenance of employee data and creation of employee history.**

	Requirement	Code	Comments
1.	Changes to compliance requirements are maintained and updated by HRIS vendor.		
2.	All compliance reporting can be generated for current periods and historical periods.		
	Standard compliance reports include:		
3.	EEO-1		
4.	OSHA 300 and OSHA 301		
5.	Multi-Worksite Reports		
6.	Vets-100		
7.	Automatic notification of I-9 expiration/visa expiration.		
8.	COBRA qualifying events are automatically triggered based on employee transactions.		
9.	COBRA letters can be generated from the system.		
10.	Tracks any accommodations made to support the American with Disabilities Act (ADA).		
11.	Tracks ADA and disability information.		

	Requirement	Code	Comments
12.	Provides military and veteran status for employees.		
13.	Includes affirmative action compliance features.		
14.	Provides HIPAA support.		
15.	Provides worker's compensation support.		
16.	Creates separate, mandated government reports for each individual tax entity.		
17.	Includes state-mandated "New Hire" reports (for child support payment tracking).		
18.	Updates from HRIS vendor when federal/state/local regulations change.		

**PERFORMANCE APPRAISAL:**

Please describe your performance appraisal feature.

Describe how the system can provide real time monitoring of performance appraisals.

Can completed performance reviews be attached to an employee record?

Can another performance appraisal system be integrated with this module?

	Requirement	Code	Comments
1.	Delivers a configurable "out-of-the box" performance management process (i.e., goal setting, feedback gathering, review, performance summary).		
2.	Solicits performance feedback from multiple reviewers (i.e., subordinates, directors, other managers, peers). Exchange data between multiple users simultaneously.		
3.	Saves work in process, draft review, and return to complete.		
4.	Tracks performance review status and dates (i.e., complete, incomplete).		
5.	Maintains performance feedback and ratings history.		
6.	Enables reporting and analysis of performance ratings for various employee groups (i.e., by job, manager, geography).		
7.	Integrates with training and succession management applications and processes (e.g., learning plans/career planning).		
8.	Provides e-mail reminders and overdue notices throughout the process.		
9.	Administrators can view the status of the review process at any time.		
10.	Administrators can assign different review forms for different employees within the same review cycle.		

	Requirement	Code	Comments
11.	Delivered with standard competencies and objectives.		
12.	Employees can complete self-evaluations.		
13.	Historical reviews can be accessed easily by managers or administrators.		
14.	Review results are automatically updated in the HRIS system for processing pay increases and reporting.		
15.	Appraisal steps can be easily defined by administrators. Different employee groups can have different appraisal steps.		

**COMPENSATION:**

Provide an overview of the key compensation features of your system.

How is the compensation features integrated with the HRIS and payroll functions?

Explain how your system creates and retains salary history.

What types of reports are available for compensation?

Describe how your system manages commissions.

Describe how your system manages bonus pay.

Describe how your system manages incentive pay.

Describe how your system manages separation pay and other discretionary pay.

Explain how pay changes are entered in the system.

Describe how a mid-period salary change is processed.

Explain how the system allows managers to plan salary increases online, process approvals via workflow, and automatically implement increases on the effective date.

Explain how annual merit increases are processed in your system.

Does your system validate minimum and maximum salary (of grade) when pay is changed, and provide warning messages as needed?

How is compensation modeling handled in your system?

Describe how salary ranges/grades are established in the system, grades are assigned to positions, and positions are assigned to associates.

Describe how salary range/grade changes are made in the system, those changes are reflected in positions, and to associates assigned to those positions.

Explain how job information is established and maintained in your system (e.g., grade, exemption status, EEO code, etc.).

Explain how your system calculates, displays, and reports compa-ratio and/or quartile information.

Explain how the same job can have different salary ranges based on job location.

**BUDGET:**

Please describe how your budget administration tool will assist our organization with effective decisions regarding future compensation.

What are the steps involved in creating a budget worksheet for your managers?

	Requirement	Code	Comments
1.	Managers can view summary data and analyze salary budget information for their departments.		
	Managers can assign salary increases based on:		
2.	Dollar amounts		
3.	Percentages		
4.	Combination of dollar and percentages		
5.	Managers can create "what if" employee scenarios to ensure that increases do not exceed the department salary budget.		
6.	Managers can apply "across the board" salary increases for a department.		
7.	Managers can allocate different percentages and/or dollar amounts to different employees.		
8.	Assign multiple salary increases to one employee (i.e., cost of living and merit increases).		
9.	Rate changes and increases are effective-dated for payroll processing.		
10.	Manager can plan for compensation, overtime, taxes and benefits.		
11.	Manager can utilize advanced functions to calculate benefits (nested if/then statements, etc.)		
12.	Manager can plan for pre-tax benefits.		
13.	Manager can set budget using FTE or Headcount.		
14.	Manager can plan for terminations, leaves, and new hires.		
15.	Managers can plan for transfers between locations, departments and sections.		
16.	Managers can plan for temporary, part time, half time employees.		
17.	Managers can plan for temporary employees from an outside agency.		
18.	Manager's view of budget can be restricted to their respective departments/offices.		

	Requirement	Code	Comments
19.	Budget Data can be exported to excel.		
20.	Current and prior year payroll data is accessible in the budget planning module.		
21.	Manager can generate variance reports to compare budget to actual expense.		
22.	System maintains historical budget records.		
23.	Budget assumes all existing comp, taxes and benefits remains the same, then allows for overrides as necessary.		
24.	System allows data to be compiled for multiple companies and currencies.		
25.	System allows all currencies to be reported in USD, using a pre-determined exchange rate.		
	System has reporting capabilities:		
26.	Company		
27.	Location		
28.	Department		
29.	Title		
30.	Section of Law		
31.	Status		
32.	Currency		
33.	Compensation Only		
34.	Benefits & Taxes Only		
35.	Employee versus Employer Expense		

**EMPLOYEE RELATIONS:**

Please describe how disciplinary actions are accommodated.

Please describe your capabilities to track grievances.

	Requirement	Code	Comments
1.	Tracks disciplinary actions including a description of the incident.		
2.	Managers and HR staff can record the type of action taken (i.e., written warning, verbal warning, termination).		
3.	Records required follow-up steps and the time frame for completion.		
4.	Schedules review of employee response to actions.		
5.	Grievances can be viewed in summary format.		
6.	Managers can drill into specific grievances.		
7.	Tracks the date and type of grievance (i.e., inequality, unfair pay, unfair working conditions).		
8.	Tracks final outcome of the grievance and the date it was closed.		

**EMPLOYEE DEVELOPMENT:**

Please describe how employee development and succession planning are accommodated in your system.

Describe how the employee development feature is used by employees.

	Requirement	Code	Comments
1.	Tracks core competencies associated with next/future job.		
2.	Flags employees that are recommended for a specific job.		
3.	Tracks the date an employee will be ready for the next position.		
4.	Managers can create a career plan based on license, skills, training and education.		
5.	Tracks multiple language proficiency information including speaking, reading, and writing, for each employee.		
6.	Maintains multiple education information per employee such as schools attended, dates of attendance, degrees, and course of study.		
7.	Does the system track the following data?		
8.	Skill code		
9.	Skill description		
10.	Experience level		
11.	Proficiency level		
12.	Last date skill used		
13.	Tracks employee licenses and certification and expiration dates.		
14.	Tracks employee professional associations. Specify limit.		

**OSHA and Safety:**

	Requirement	Code	Comments
1.	Maintains OSHA logs at the employee level.		
2.	Can view a summary page/window showing all incidents for an employee.		
3.	Can view the detail of an individual employee incident.		
	Incident details include:		
4.	Accident or exposure itself		
5.	Date and time		
6.	Days away from work		
7.	Days of restricted work		
8.	Illness or injury		

	Requirement	Code	Comments
9.	Complete incident description		
10.	Ability to add notes.		
11.	Case number may be auto incremented.		
12.	OSHA reports are included as standard reports (OSHA 300, and OSHA 301).		
13.	All incident history is maintained indefinitely.		
14.	Incident information and history are accessible through reporting.		
15.	Managers can view and update OSHA information using Manager Self- Service.		
16.	Maintains required safety reporting for international operations.		

**ORGANIZATION CHARTS:**

Explain how your system creates organizational charts.

Describe how your system maintains employee "report to" data.

Describe how your system handles/manages large reorganizations.

	Requirement	Code	Comments
1.	Provides ability to export data to an organization charting application.		
2.	Provides a standard employee export that provides data in the required format.		
3.	Generates organization chart without requiring the user to make any changes.		
4.	Provides ability to create more customized export templates.		
5.	Structures the organization chart based on the reporting relationships defined for each employee.		
	Provides the ability to establish different export records to create organization charts for the following:		
6.	Various companies		
7.	Locations		
8.	Pay groups		
9.	Organization levels (by using the company and data selector options).		
10.	Tracks open positions in the organization chart.		

**BENEFITS:**

Describe the integration between benefits and payroll.

How does your system handle benefits administration?

Explain how your system facilitates reporting to third party vendors such as benefit providers.

Does the benefit data automatically populate in payroll? Is it real-time or a batch process?

Does your system have a module to maintain Worker’s Compensation Claims, Costs, tracking lost time, restrictions, legal reporting requirements, regular reporting, etc.? Does the system allow for tracking of all notes, conversations, etc.?

Does the system allow for tracking of all notes, conversations, etc.?

How do you support electronic signatures?

	Requirement	Code	Comments
1.	Provides total integration between benefits and payroll including other payroll vendors.		
2.	Maintain calculations and limits in compliance with federal legislation.		
3.	Assigns different benefit packages to different groups of employees based on eligibility rules.		
4.	Establishes benefit/deduction plans with multiple types and options.		
	Supports effective dated:		
5.	Benefit/deduction plans		
6.	Employee benefit/deduction plan enrollment		
7.	Employer benefit/deduction plan enrollment		
8.	Updates benefit/deduction plans based on employee status change.		
9.	Tracks “waived” benefit/deduction plans.		
10.	Assigns a rate schedule to apply new rates with future effective dates for the new plan year.		
11.	Without writing a separate program, automatically updates premiums for age/salary driven benefit calculations.		
12.	Automatically enrolls employees in required plans.		
13.	Automatically cancels specified employee benefits upon termination.		
14.	Allows benefit costs to be set up for the new year while		

	Requirement	Code	Comments
	continuing processing for the current year.		
15.	Tracks and maintains information for dependents and beneficiaries.		
16.	Calculates imputed income.		
17.	Tracks and reports workers' compensation claims.		
18.	Facilitates reporting to third-party vendors such as benefit providers.		
19.	Provides one screen that shows employee data ("benefits-at-a-glance"), without having to scroll through multiple screens.		
20.	Defines and maintains benefit/deductions for the employee and employer		
21.	Includes automated schedules for benefits/deductions.		
22.	Supports benefit/deduction goals and limits.		
23.	Supports "catch up" contributions on deferred compensation plans.		
24.	Recovers benefit/deduction amounts that have been put into arrears.		
25.	Supports multiple arrear types.		
26.	Includes defined start and stop dates for benefit/deduction.		
27.	Processes one-time benefit/deductions.		
28.	Maintains and tracks savings bond benefits/deductions.		
29.	Restricts participants from receiving more than the annual limit for reimbursement accounts including 403(b) and 401(k).		
30.	Includes pre-tax and post-tax benefits/deductions.		
31.	Supports a designated default amount for each deduction code.		
32.	Supports multiple types of life insurance, long term disability, and short term disability.		
33.	Supports flexible spending accounts (FSA).		
	Display flexible spending account information such as:		
34.	Plan information		
35.	Balance of funds in account (s)		
36.	History of transactions for reimbursements		
37.	Maintains updated FSA balance.		
38.	Includes minimum check option for FSA.		

**OPEN ENROLLMENT:**

Describe the system capabilities for online benefits enrollment (e.g., eligibility rules, tenure or grade level based premiums, plan dates).

Describe how your self-service solution can be used to guide employees through benefits enrollment.

What tools do you have available for benefit administrators to monitor and provide a smooth enrollment process for the company and its employees?

Is workflow associated with benefit enrollment and life event changes?

	Requirement	Code	Comments
1.	System provides next-year enrollment capability while in current year.		
	From a Web browser, employees can:		
2.	View current benefits and related information.		
3.	Compare current benefits to the new benefits employees may choose to elect.		
4.	Compare the cost of current versus new benefits.		
5.	Make benefit elections from a list of eligible benefits.		
6.	Keep existing benefit elections with no changes.		
7.	Modify existing benefit elections.		
8.	Make new benefit elections to replace existing benefits.		
9.	Waive or decline benefits.		
10.	Review, add, modify and remove dependents and beneficiaries.		
11.	Review benefits and summary description documents.		
12.	Link to benefit plan provider Web sites for additional information to help in making informed benefit and provider choices.		
13.	Save "in progress" enrollments and then later return to modify choices, make additional elections and complete the enrollment process.		
14.	Make life event (e.g., baby, marriage) benefit changes.		
	From a Web browser, managers can:		
15.	Describe benefit plans and include specific plan details.		
16.	Include customized messages to employees on enrollment pages, (e.g., new benefit notifications, additional instructions, deadlines for completion, disclaimer for those employees who decline a benefit).		

	Requirement	Code	Comments
17.	Specify the display order in which each benefit plan is viewed by the employee.		
18.	Identify required and optional activities that designate an active versus passive enrollment.		
19.	Limit the number of dependents to the employee for each benefit plan offered.		
20.	Limit the number of dependent relationships to the employee for each benefit plan offered.		
21.	View the statuses of all enrollments.		
22.	Drill into benefit groups and plans to check specific enrollment information such as a list of employees whose enrollments are completed, in progress, or not yet started.		
23.	Add or modify employee elections.		
24.	Send due date reminders using an integrated e-mail feature.		
25.	Use a "manage paperwork" feature to track requests for additional information or paperwork (e.g., proof that a dependent is enrolled in school, required Evidence of Insurability form).		
26.	Create Internet links to benefit plan provider Web sites so employees can obtain additional details to help them make informed choices.		
27.	Attach enrollment worksheets for employees to use when making life event benefit changes.		
28.	Report and track benefits-related information and activities as they relate to new hires, benefit group changes, dependents, session setup, employee elections, and terminations.		
29.	Export employee enrollment data (e.g., 401(k) plan), to a ready-to-send file that can be transmitted to appropriate plan providers or third party administrators prior to the plan effective date.		
30.	Supports default benefits which can be set up for new hires.		
31.	Supports unique enrollment dates for each benefit plan.		
32.	Provides a next year enrollment capability.		
33.	Provides ability to report life event (e.g., marriage) and allow "eligible" changes to benefit elections.		
34.	Allows updates to dependent information for life events.		

**LIFE EVENTS**

Please describe the life events that come standard without configuration.

Describe how the available life event options are established and maintained in your system.

	Requirement	Code	Comments
1.	Allows online enrollment form for associates to use when making life-event benefit changes.		
2.	Supports life events processed through the associate self-serve function of the system.		
3.	Provides online ability to make life event changes (marriage, birth of a child, death, divorce).		
4.	Automatically prompts "eligible" changes to benefit elections when life event change made.		
5.	Allows update to dependent information for life events.		
6.	Allows removing a dependent.		
7.	Alerts student status end date to associate and employer		
8.	Allows update address changes.		
9.	Allows change in marital status.		

**LEAVE ADMINISTRATION**

How are leaves of absence identified and processed in the system?, i.e. Personal Leave (PL) and Family and Medical leave Act (FMLA)

Vista maintains all leave accrual information for each type of Leave (personal

Explain how your system facilitates handling the provisions of the Family and Medical Leave Act (FMLA).

Explain how you coordinate and manage FMLA with STD management. Describe in detail how the communication and workflow would operate.

Describe how the system maintains leave of absence history records, time/hours used, including multiple leaves in a 12-month period so time off does not exceed maximum time allowed.

Describe how your system monitors workers' compensation and the related leave of absence

Describe the benefit premium collection process when associates are on leave without pay.

How are leave associates notified about open enrollment and their benefit elections processed?

	Requirement	Code	Comments
1.	Supports leave types		
2.	Supports maximum duration of leave types and combined leaves, i.e. FMLA to PL, etc.		
3.	Tracks due dates of Certification of Healthcare Provider Form by associate		
4.	Tracks the approved date when the associate's leave of		

	Requirement	Code	Comments
	absence is expected to start.		
5.	Tracks the approved date when the associate is expected to return from the leave.		
6.	Tracks and reports cumulative FMLA/PL time taken.		
7.	Maintains leave of absence history.		
8.	Calculates the planned duration, based on expected end and expected start dates.		
9.	Supports workflow approval processes for leave requests initiated by associates or managers.		
10.	Displays warning message during pay processing if time entered exceeds the leave balance.		

**Paid Time Off (PTO), Vacation, Personal Day, Sick**

Can employees request PTO?

Describe how your system calculates accrued PTO. Can it handle multiple types of "time off" accounts (i.e. PTO, VAC, Sick & Personal Day)?

	Requirement	Code	Comments
1.	PTO accruals and leave administration can be processed without Time and Attendance feature.		
2.	PTO plans can be configured for a lump sum accrual on an annual basis.		
3.	PTO plans can be configured to accrue based on length of service and user defined rates.		
	PTO plans can be configured to accrue based on user-defined frequencies.		
4.	Per number of days		
5.	Per number of weeks		
6.	Per number of months		
7.	Per number of years		
8.	Per fixed date		
9.	Per included hours		
10.	Per included earnings		
11.	Per pay period		
12.	Per customer defined rules		
13.	PTO plans can be configured to adhere to user-defined carryover rules.		
14.	Supports unlimited types of leave.		
15.	Tracks the approved date when the employee's leave of absence is expected to start.		
16.	Tracks the approved date when the employee is expected to return from the leave.		
17.	Tracks and reports cumulative (FMLA) time taken.		
18.	Maintains leave of absence history.		

	Requirement	Code	Comments
19.	Calculates the planned duration based on expected end and start dates.		
20.	Employees can view PTO/leave plan balances.		
21.	Employees can request PTO/leave.		
22.	Manager can view PTO/leave plan balances.		
23.	Managers can view pending employee PTO/leave requests.		
24.	Manager can request PTO/leave.		
25.	Workflow approval processes are included for PTO/leave requests initiated by employees or managers.		
26.	Ability to have multiple leave rules based on the state in which the employee works.		

**Flexible Spending Account (FSA)**

Does your system support multiple FSA accounts/ HSAs?

How does your system notify third party FSA vendors when an employee terminates?

	Requirement	Code	Comments
1.	Supports associate enrollment.		
2.	Enrolls associates in FSA/HSA plans through benefits open enrollment.		
3.	Maintains two open plan years so reimbursements can be paid from one year, while beginning claims processing for the new benefit year.		
4.	Restricts participants from receiving more than the annual contribution election limit for reimbursement accounts.		
5.	Supports associate enrollment.		

**Pension**

Provide an overview of pension-related features/functionality of your system.

Describe how the system manages years of service for rehires and breaks in service.

Explain how your system tracks pension payouts to terminated associates.

Describe how years of service are managed in the system.

Does your system provide a way to determine if a rehire has already had a pension pay out and the date of pay out?

Pension and service years can be determined reflecting an associate's leave of absence under FMLA.

Can your system calculate the employer contribution amount by participant?

**401(k)**

Describe how your system exports 401(k) enrollment/change data to a ready-to-send file that can be transmitted to record keeper/trustee on a weekly basis or at initial enrollment.

Describe how you manage 401(k) changes from third-party vendors.

What types of information have you provided to third-party vendor regarding address changes, terminations, etc?

Explain how your system will enable us to handle associate loans against 401(k) plans, including repayment through payroll deductions.

How will the system notify us that an associate has an unpaid loan balance at termination?

Explain how your system handles maximum IRS allowable annual contributions. How is this maximum changed as IRS maximums change?

Describe how your system calculates IRS maximum allowable contributions when participant chooses to contribute in both pre-tax and after-tax plans.

Describe how calculations for “employer portions” are established and managed in the system. Pre-tax & after-tax?

How are “catch up” contributions handled in your system?

Describe how 401(k) contributions, sent to our record keeper/trustee, are reconciled.

**COBRA**

	Requirement	Code	Comments
1.	Defines employee’s COBRA status, date of qualifying COBRA event, description of COBRA event, and date the COBRA notification letter was sent.		
2.	Defines dependent’s COBRA status, date of qualifying COBRA event, description of COBRA event, and the date the COBRA notification letter was sent.		
3.	Automatically captures COBRA information during the termination process		
4.	Automatically generates COBRA notifications.		
5.	Create COBRA notification letters and invoices.		
6.	Exports all employee and dependent COBRA information to a third party COBRA administrator.		
7.	Generates COBRA billing documents		
8.	Maintains COBRA payment history		
9.	Manager can request PTO/leave.		

	Requirement	Code	Comments
10.	Workflow approval processes are included for PTO/leave requests initiated by employees or managers.		
11.	Ability to have multiple leave rules based on the state in which the employee works.		

**POSITION MANAGEMENT:**

How are position statuses maintained in the system?

What information associated with the employee is controlled by the position?

What are the system rules for calculating FTE?

Will the system enable us to track positions currently including those budgeted now, in the future, and in the past?

	Requirement	Code	Comments
1.	Provides position management reports by different organizational levels.		
2.	Tracks headcount and full time equivalents (FTE) associated with positions.		
3.	Tracks multiple position assignments for an employee.		
4.	Calculates FTEs in multiple ways.		
5.	Stores unlimited history of changes recorded to the position record.		
6.	Tracks unlimited history of changes to employee position assignments.		
7.	Records information for replacement planning, indicating possible new positions for employees.		
8.	Integrates with recruitment and staffing feature for establishing requisitions.		
9.	Supports the generation of organization charts based on position "reports to" hierarchy.		
10.	Tracks status of position approval.		
11.	Allows overstaffing for positions.		
12.	Prohibits assignments to a position if overstaffing is not allowed.		
13.	Allows position codes in the GL distribution.		
14.	Allocates employee pay by position code automatically.		
15.	Assigns position number manually or automatically.		
16.	Provides on-line position incumbent data.		
17.	Provides on-line prior position incumbent data.		
18.	Indicates budget period.		

	Requirement	Code	Comments
19.	Maintains approved budget by position including dollars, hours and FTEs.		
20.	Tracks current budget accumulators and provides on-line views.		
21.	Tracks budget variances.		
22.	Maintains multiple budget plan years on-line.		
23.	Standard reports that assess budgeted vs. actual FTE's and dollar amounts.		

**PAYROLL:**

Describe your application's payroll functionality.

Is this application integrated with the main HRIS application?

Was this application developed in house or purchased?

Explain how changes are tracked and viewed throughout the system.

Describe the payroll process for transferring an associate between departments, companies, or states. Is this integrated with the HR function or is a separate process required?

Describe tools/features available for employees to submit inquiries on their pay.

	Requirement	Code	Comments
6.	Ensures payroll system reflects appropriate earnings and deduction codes based on company benefits and compensation structures.		
7.	Allows system to be set-up to receive and manage company initiatives such as United Way.		
8.	Provides online help in application for end-users.		
9.	Provides online help in application for administrators.		
10.	Provides "wizards" to walk users through completing tasks.		
11.	Provides a "test" system for customers to test new features and potential changes.		
12.	Provides a "test" system for customers to use for internal training.		

**EARNINGS:**

Explain how your system will enable us to pay multiple earnings that are taxed differently, but paid on the same pay check (e.g., regular wages taxed based on the W4 and bonus wages taxed at the supplemental rates on one pay check).

Explain how your system will enable us to combine multiple earnings for an individual working multiple positions or jobs.

Are there limits to the number of earning codes that can be established in your system?

Can specific earnings be scheduled for a specific payroll cycle?

	Requirement	Code	Comments
1.	Provides an unlimited number of earnings codes		
2.	Pays various earnings types (e.g., severance or bonus) after an employee is terminated on system.		
3.	Provides automatic gross up calculation for earnings.		
4.	Allocates earnings by different organizational levels.		
5.	Delivers all federal, state and local earnings tax categories.		
6.	Calculates and initiates off-cycle/special payments (e.g., signing bonus, annual bonus).		
7.	Delivers an expression builder to create company specific earnings calculations.		
8.	Allows for earnings to be scheduled in the payroll calendar.		
9.	Specifies start and stop dates for earnings.		
10.	Differentiates which earnings to include/exclude from other calculations (e.g., shift, deferred compensation).		
11.	Earnings codes are specific for different types or groups of employees (e.g., part time or executive).		
12.	Tracks YTD amounts, by earnings type, for unlimited number of years in check detail history.		
13.	Tracks YTD hours worked, by hours type, for unlimited number of years in check detail history.		
14.	Supports the calculation of taxable fringe benefits.		
15.	Supports the calculation of imputed income.		
16.	Provides ability to enter non-taxable reimbursements.		
17.	Handles employees with multiple rates of pay.		
18.	Calculates various shift premiums.		
19.	Accurately pays shift premium for employees who work multiple shifts.		
	Overtime calculations include:		
20.	Half time		
21.	Time and a half		
22.	Double time		

	Requirement	Code	Comments
23.	Triple time		
24.	Calculates co-efficient overtime on the payroll input screen.		
25.	Distinguishes between regular and premium wages for workers' compensation.		
	Automatically accumulates hours and earnings by:		
26.	Fiscal year-to-date		
27.	Year-to-date		
28.	Quarter-to-date		
29.	Month-to-date		
30.	Last payroll		
31.	Employees can view YTD earnings through employee self -service.		
32.	Define hours per week by employee or job level.		
33.	Is file ID# unique i.e. no instances where a new number needs to be reassigned a new number regardless of entity.		

**DEDUCTIONS/BENEFITS:**

Describe the integration between benefits and payroll. When a change is made to an employee's benefit election (e.g., single to family coverage), how does the deduction amount get changed in payroll or other outside systems?

How does your product recover deduction amounts that have not been withheld from an employee's pay?

Does your system calculate garnishments based on the state and federal calculation rulings?

	Requirement	Code	Comments
1.	Provides an unlimited number of deduction codes.		
2.	Calculates garnishments based on the state and federal calculation rulings.		
3.	Stores other relevant garnishment data at the deduction level (e.g., case number, payee).		
4.	Delivered logic to properly calculate multiple garnishments.		
5.	Sends child support and/or other payroll deduction information to accounts payable for separate check processing.		
6.	Delivers all federal, state and local deduction/benefit tax categories.		
7.	Accommodates one time deductions.		
8.	Delivers an expression builder to create company specific deduction calculations.		

	Requirement	Code	Comments
9.	Allows for deductions to be scheduled in the payroll calendar.		
10.	Allows client-defined prioritizing of deductions.		
11.	Associates goal limits to deduction codes.		
12.	Supports start and stop dates for deductions.		
13.	Automatically cancels specified employee deductions upon termination based on company business rules.		
14.	Supports effective dating with deductions.		
15.	Includes a rate table at the company level for benefit deduction amounts, so they are not manually entered on each employee.		
16.	Deduction cost can be entered for the new year, while continuing processing for the current year		
17.	Deduction codes are specific for different types or groups of employees (e.g., part time or executive).		
18.	Tracks YTD amounts, by deduction type, for unlimited number of years in check detail history.		
19.	Allocates deductions by multiple organizational levels.		
20.	Maintains unlimited history of all deduction changes.		
	Automatically accumulates deductions by:		
21.	Fiscal-year-to-date		
22.	Year-to-date		
23.	Quarter-to-date		
24.	Month-to-date		
25.	Last payroll		
26.	Allows employees to view YTD deductions through employee self service.		
27.	Ability to temporarily override deduction amounts		
28.	Temporarily inactivate deductions at the employee level one-time or on an on-going basis		
29.	Temporarily inactivate deductions at the company level to affect all employees		

## CALCULATING PAY

Where is gross pay calculated (i.e., payroll or time and attendance system)?

Describe how a time and attendance system would be integrated into the calculation of pay.

Describe how an out-of-cycle check is calculated and processed. Manual payments allowed?

Describe how time without pay and partial pay are calculated by your system. Include exempt and non-exempt.

Describe how pay is calculated for new hires and terminations.

Describe how adjustments to exempt salaries are calculated, particularly partial pay.

	Requirement	Code	Comments
1.	Supports unlimited earnings, deductions and tax codes.		
2.	Supports different types of income.		
3.	Supports associates with multiple rates of pay and department/cost center assignments.		
4.	Tracks associates with multiple pay rates and departments/cost center assignments.		
5.	Maintains and updates overtime and pay specific rules including state specific rules.		
6.	Supports automatic retroactive pay calculations and payments.		
7.	Enables date-driven salary changes (allowing past and future changes).		
8.	Allocates by different organizational levels and/or projects.		
9.	Calculates shift differentials and job premiums automatically.		
	<b>Automatic calculations</b>		
10.	Performs gross to net calculations per associate per check and are immediately viewable.		
11.	Calculates and initiates off-cycle and special payments (e.g., signing bonus, annual bonus).		
12.	Provides automatic gross up calculation for earnings.		
13.	<i>Overtime calculations include:</i>		
14.	Half time		
15.	Time and a half		
16.	Double time		
17.	Triple time		
18.	Guaranteed overtime (e.g., paid overtime for working Saturday even if normal work week does not exceed 40 hours)		
	<i>Customer can override an associates pay check by entering or changing:</i>		
19.	Tax frequency		
20.	Method of payment (check vs. direct deposit)		
21.	Rate of pay		
22.	Shift codes – How many are allowed?		
23.	Hours		
24.	Earnings		
25.	Deductions		
26.	Deduction arrears		
27.	Taxes (State, Federal, and Local)		
28.	Allocation fields (dept, project, location, etc.)		

	Requirement	Code	Comments
	<b>Non-Wage Income</b>		
29.	Handles earned income credit.		
30.	Handles imputed income by pay period.		
31.	Handles moving expenses to reflect as income		
	<b>Wage Allocations</b>		
32.	Supports multi-tier wage allocations across multiple cost centers		
33.	<i>System provides wage allocations by:</i>		
34.	Companies		
35.	Departments		
36.	Divisions		
37.	Regions		
38.	Locations		
39.	Branches		
40.	Cost centers		
41.	Projects		
42.	Pay groups		
43.	<b>Terminated Associates</b>		
44.	Automatically stops deductions and calculates final pay based on associate's termination date (including PTO, benefit deductions, etc.).		
45.	Identifies associates who have pension dollars required to be paid out at termination.		
	<b>Reporting</b>		
46.	Provides standard wage allocation reports		
	<i>Reports can be created with actual cost allocations including:</i>		
47.	Rate of pay		
48.	Shift codes – How many are allowed?		
49.	Hours		
50.	Earnings		
51.	Deductions		
52.	Deduction arrears		
53.	Taxes (State, Federal, and Local)		

**TAXES:**

Describe tax resources provided to your customers on tax regulations at the federal, state, and local levels? How do your customers access this information?

[CompareHRIS.com](http://CompareHRIS.com)

Note whether you developed your own tax calculation system or you use another company's tax calculation system. If you use another company's tax calculation system, explain how it integrates with your payroll system.

What tax updates, if any, are provided and how are these updates received?

Describe how your system can accommodate consolidated tax returns for multiple companies.

Do you provide full tax filing processes?

	Requirement	Code	Comments
1.	Provides for all federal, state and local taxing jurisdictions within the United States and its territories.		
2.	Provides for all taxing jurisdictions for international locations.		
3.	Supports tax calculations of lived in versus worked in state and local payroll taxes.		
4.	Supports state and local reciprocal agreements.		
5.	Provides all relevant end of year payroll processing reports, including W-2, 941, 1099s, State, SUI, and worksite reporting.		
6.	Supports the outsourcing of payroll tax deposits and filings.		
7.	Vendor can provide a print service for W-2s.		
8.	Supports client with preparing tax deposits and filings internally.		
9.	Produces tax documents, magnetic media, and signature ready reports to file.		
10.	Allows a customer to create/print their own W-2s.		
11.	Allows an employee to view/print their own W-2.		
12.	Supports federal, state and local supplemental wage taxation.		
13.	Allows for earnings to be taxed at different tax rates (e.g., regular and supplemental) on the same check.		
14.	Delivers all wage tax categories for wages reported (e.g., W-2, 1099).		
15.	Maintains tax rates within the proposed system.		
16.	Maintains a history of tax tables by change date.		
17.	Employees can change W-4 information via a Web portal.		
18.	Managers can change employee W-4 data via a Web portal.		
19.	Tax documents (e.g., signed W-4, I-9) can be attached to an employee's record.		
20.	Employees can perform pay check modeling.		
21.	Provides a payroll tax reconciliation tool.		
22.	Tracks YTD taxes, by tax, type for an unlimited number		

	Requirement	Code	Comments
	of years in check detail history.		
23.	Tracks YTD taxable wages, by tax type, for an unlimited number of years in check detail history.		
24.	Accommodates separate tax exempt controls for federal, state, and local taxes.		
25.	Provides additional withholding fields for federal, state, and local taxes.		
26.	Supports one time additional tax amounts in payroll processing.		
27.	Allows for payroll adjustments to correct taxes to be posted to current quarter.		
28.	Allows for payroll adjustments to correct taxes to be posted to a prior quarter.		
29.	Allows for a payroll administration user to generate an employee W-2C.		

**PAYROLL TIME ENTRY:**

Explain how employee timesheets can be entered on-line. How are these timesheets approved?

	Requirement	Code	Comments
1.	Allows customization of the pay sheet so that only data for a specific payroll appears on the pay sheet.		
2.	Specifies the columns the user wants to display on the pay sheet.		
3.	Controls the properties of the columns the user specifies.		
4.	Designates specific groups of employees to pay.		
5.	Views employee and group totals as payroll data is entered.		

**PAYROLL PROCESSING:**

Describe the process, steps, and time required for running payroll.

Describe the payroll gross-to-net process. Include manual checks.

Describe situations that cause down time for other areas of the application when payroll is processing.

Describe the audit process for each payroll.

How are unscheduled payrolls handled?

[CompareHRIS.com](http://CompareHRIS.com)

Describe payroll and year-end processing in the proposed system.

Describe your adjustment process for a typical payroll. How are quarter-end and year-end adjustments processed?

Are all custom payroll reports available to view during payroll processing? Please explain.

Are there any payroll reports that cannot be accessed while payroll is running? Why?

What is the process if payrolls need to be re-run multiple times?

Is there a limit to how many times payroll can be re-run?

Is data syncing necessary for payroll processing? Why?

Can you reprint checks if printer or something errors?

	Requirement	Code	Comments
1.	Run supplemental payrolls at any time.		
	Provides for pay data entry by:		
2.	Employee online		
3.	Manager online		
4.	Batch uploads		
5.	Import from third party time and attendance solution		
6.	Exception-based/autopay (e.g., salaried or fixed hourly employees).		
7.	Performs gross-to-net calculations per employee per check, which are immediately viewable.		
	User can override an employee's pay check by entering or changing:		
8.	Tax Frequency		
9.	Method of payment (e.g., check vs. direct deposit)		
10.	Rate of pay		
11.	Hours		
12.	Earnings		
13.	Deductions		
14.	Deduction arrears		
15.	Taxes		
16.	Allocation fields (e.g., dept, job, project, location)		
17.	Performs gross up calculations.		
18.	Allows for an unlimited number of checks issued to an employee per payroll processing.		
19.	When preparing multiple checks for an employee during a payroll process, options exists for direct deposit or live check as well as the ability to exclude or process		

	Requirement	Code	Comments
	deductions.		
20.	Provides pre-check registers and audit reports prior to processing payroll.		
21.	Allows for manual checks to be printed onsite or any location.		
22.	voids payroll checks by selecting the appropriate check; changes should be applied to applicable quarter's totals.		
23.	Provides capability to re-run selected steps of the payroll process.		
24.	Provides for check reconciliation.		
	Using Web browser, administrators can run the entire payroll process including:		
25.	Collect employee time		
26.	Open payroll		
27.	Calculating pay (including gross-to-net)		
28.	Pre-check preview and editing		
29.	Check payroll processing status		
30.	Generating pay checks and/or direct deposit advises		
31.	Payroll reporting		
32.	GL reporting		
33.	Post payroll		
34.	Close payroll		
35.	Create manual checks (interim, voided)		
36.	Print checks from the Web		
37.	Update deduction goal amounts		
38.	Perform check reconciliation		
39.	Tax filing		
40.	Supports different types of payment methods (e.g., direct deposit, live check).		
41.	Print checks in any order, which may differ from payroll registers.		
42.	Proposed vendor can provide check printing services.		
43.	Provides internal check printing capability.		
44.	Supports laser printed pay statements to include MICR coding and signatures.		
45.	Supports unlimited check detail history .		
46.	Provides online pay statements to employees without creating paper statements.		
47.	Allows for paid time off information (e.g., vacation) to be on pay statement.		
48.	Supports paying employees from different bank accounts.		
49.	Create an "ACH" file for direct deposit.		
50.	Can rerun "ACH" file to include adjustments.		
51.	Allows employees to have up to 99 direct deposit accounts.		

	Requirement	Code	Comments
52.	Supports partial direct deposits in either a flat dollar amount or a percentage of an employee's pay.		
53.	Supports Positive Pay.		
54.	Process a refund (negative deduction) with no earnings, pretax and after tax deductions (taxes adjusted with refund).		

**CHECK MANAGEMENT:**

Describe how your customers process and print a check locally at their site.

Explain how your system provides direct deposit for associates including direct deposit to multiple accounts. Indicate the maximum number of accounts to which an associate can deposit pay and the methods (fixed amount, percent, or other) by which the funds can be split.

	Requirement	Code	Comments
1.	Supports different types of payment methods (e.g., direct deposit, live check, etc).		
2.	Supports printing checks in any order, which may differ from payroll registers.		
3.	Supports check printing services by vendor.		
4.	Supports unlimited check detail history.		
5.	Provides online pay statements to associates, without creating paper statements.		
6.	Allows for Paid Time Off and Accrued Absent Time (AAT) information to be on pay statement.		
7.	Supports paying associates from different bank accounts.		
8.	Creates an ACH file for direct deposit.		
9.	Allows customer to rerun ACH file to include adjustments.		
	<b>Voided Checks</b>		
10.	Provides ability to void checks by number and reversals are immediately fed to the general ledger.		
11.	Provides ability to enter multiple check voids by range.		
	<b>Direct Deposits</b>		
12.	Handles direct deposit to multiple financial institutions in various federal reserve districts.		
13.	Allows for an unlimited number of checks issued to an associate per payroll processing.		
14.	Allows for manual checks to be printed onsite.		

**LABOR ALLOCATION:**

Explain how the proposed system would allocate by different organizational levels and projects.

Describe how the proposed system handles employees with multiple rates of pay and department or cost center assignments. How would employees with multiple jobs or positions be handled?

Describe how your system recognizes over time for employees who work across various divisions or companies within the same work week.

	Requirement	Code	Comments
1.	System provides for an unlimited number of the following:		
2.	Companies in one database		
3.	Departments		
4.	Divisions		
5.	Locations		
6.	Cost centers		
7.	Jobs		
8.	Supervisors		
9.	Pay groups		
10.	GL base accounts		
11.	Tracks an unlimited number of labor distributions in history.		
12.	Allows at least four client definable organizational levels.		
13.	Supports a multi tier labor allocation (e.g., allocation on different fields, dept, job, location).		
	Reports can be created with actual cost allocations including:		
14.	Earnings		
15.	Employee deductions		
16.	Employee taxes		
17.	Net pay		
18.	Employer deductions		
19.	Employer taxes		
20.	Workers' compensation premiums		
21.	Supports the creation of labor allocation files with user defined timeframes (e.g., 1 payroll period or 7 payroll periods).		
22.	Allows actual labor allocations to be fed into General Ledger.		
23.	Creates labor allocation reports.		

	Requirement	Code	Comments
24.	Allows for end of month accrual processing		

**GENERAL LEDGER:**

Describe your general ledger process.

Identify general ledger and financial systems that interface with your software?

Please describe how the proposed system will support multi-tier labor allocations to post actual employee cost to GL. This includes the allocation of wages, employee and employer taxes, and employee and employer deductions by multiple organizational levels.

What reporting tools are available to query General Ledger transactions generated from payroll?

Can data be exported to excel for editing capabilities?

Is there a limitation to length, character segments of General Ledger number?

Can you use descriptions in the General Ledger?

What setup is required for integration i.e. import and exports?

	Requirement	Code	Comments
1.	Maps GL account numbers within your payroll system.		
2.	Accommodates multiple GL segments and can be printed separately or all together on reports.		
3.	GL setup tables are assessable by users to change at any time.		
4.	GL distribution report or file can be created for a user defined period.		
5.	An exception to the GL mapping is accommodated down to the employee level.		
6.	Creates GL accruals.		
7.	GL account numbers can be changed by the user and the GL can be rerun for specified pay period(s)		
8.	Immediate availability of GL data when the payroll is posted to history.		
9.	GL historical data is accessible to user.		
10.	Adjustments (e.g., manual and void checks) are automatically posted to GL.		
11.	GL feature includes tools to export data in a user		

	Requirement	Code	Comments
	specified format.		
12.	Provides an ad hoc query tool for reporting on GL data.		
13.	Provides an OLAP tool for reporting on GL data		

**TIME AND ATTENDANCE:**

Please describe your Time and Attendance functionality.

Does your system include a leave management feature?

	Requirement	Code	Comments
1.	Includes multiple rounding rules by pay group.		
2.	Multiple grace periods by pay group.		
3.	Unlimited number of user defined time/earnings codes		
4.	Includes the definition and application of complex pay rules based on timesheet details.		
5.	Date effective recording of all timesheet- and employee-related data.		
6.	Can maintain and modify any and all complex pay rules without vendor intervention.		
7.	Allow employee punch captured for start and stop times of breaks and lunches.		
8.	Allow group change capabilities to modify common elements in a group of employee timesheets.		
9.	Employees can enter hours using on-line timesheets.		
10.	Timesheet values can be adjusted by week and selected days within a week by authorized users.		
11.	Provides a comprehensive audit trail of all changes made to the timekeeping records.		
12.	Tracks both standard and actual hours by activity code for analysis purposes.		
13.	Stores employee (contractor) hours to be withheld from payroll upload.		
14.	Retro calculations based on payroll transfer date.		
15.	Allow the viewing of overtime by employee(s) by time period.		
16.	Allow validation of over 100,000 docket codes, in an on-line fashion, when activity code is entered at timekeeping device.		
17.	Includes various types of payroll lockdown dates to freeze timesheet edits for payroll processing (i.e. supervisor lockout date, hands-off date, etc.).		
18.	Allow a fully reconciled payroll, labor and job activity information captured and maintained within the application		

	Requirement	Code	Comments
19.	Allow the tracking of labor metrics (includes project, job, department and dockets).		
20.	Allow the real-time alerting of immediate time and attendance value/ rule violations including; Minor rule violation State rule violation Local rule violation No shows Approaching Overtime		
21.	Allow employees to punch in and out and make position changes on-line.		
22.	Allow on-line edits to daily timesheets by employee and by authorized users.		
23.	Allow real time access to activities and related costing information.		
24.	Allow the validation of absence codes against associated leave balances.		
25.	Allow for absence tracking with year at a glance scoring and analysis.		
26.	Allow for the viewing employee attendance data for a given year.		
27.	Allow employees to request time off, tracks status with dynamic validation against time off business rules.		
28.	Allow for the employee to view their timesheet along with weekly hours and costs.		
29.	Allow for non-technical personnel to generate standard reports via a web-based, wizard-style interface.		
30.	Allow for scheduled reports to run automatically and be distributed to specific users/distribution lists, via email or other means of distribution.		
31.	Allow for the building, modification and maintenance of custom reports by non-technical employees.		
32.	Allow for the report hours of worked/dollars earned by employee by selected date range.		
33.	Allow the reporting employee leave balances totals.		
34.	Allow for reports to be created by copying an existing report and modifying it.		
35.	Allow for the routing of exception report results to supervisors.		
36.	Allow for business intelligence rules to be built supporting customer specific requests.		
37.	Tracks FMLA including intermittent leave.		
38.	Report on FMLA status include intermittent leave based on rules established.		

**HISTORY:**

Explain the kinds of historical information your system maintains.

What accumulators are standard? Please give examples.

For archived records, what is the retrieval time?

How is system performance affected by the growth of the historical records?

	Requirement	Code	Comments
1.	Provides a narrative history (e.g., for disciplinary actions, grievances, exit interviews).		
2.	Provides point-in-time reporting capability.		
3.	All historical data is viewable.		
4.	All historical data is reportable.		
	Maintain unlimited history on the following:		
5.	Job information		
6.	Salary and wage data		
7.	Evaluation and performance data		
8.	Career, skills and education		
9.	Training information		
10.	OSHA and workers' compensation data		
11.	Organizational changes		
12.	Employee status		
13.	Benefit elections		
14.	Pay check details		
15.	Earnings detail		
16.	Deduction detail		
17.	Tax detail		
18.	Archives older historical records.		
19.	Can bring firm history from prior software.		

**CONVERSION**

Describe how existing history is extracted and imported to your system at conversion.

Are there fees associated with converting history?

**POST CONVERSION**

Define the historical information your system maintains and how long it is available to your customers.

**EMPLOYEE SELF SERVICE:**

Describe your application's employee self-service functionality. What are the major features?

Is this application integrated with the main HRIS application?

When was this product developed?

Was this application developed in house or purchased?

Please explain how your employee self-service feature will assist in the communication between the company and employees. What types of information can be made available to our employees, reducing the amount of calls to human resources and payroll?

Can pictures be embedded in an employee record? What are the file types?

	Requirement	Code	Comments
1.	Employees can view communications posted from administrators.		
	Employees can access links that can launch:		
2.	Documents (forms may be saved and/or printed).		
3.	Web sites		
4.	E-mails		
5.	Employees can model their paycheck for changes including deductions, marital status, and exemptions.		
	Employees can view and/or update personal information including:		
6.	Name		
7.	Address		
8.	Phone numbers		
9.	Emergency contacts		
10.	Previous employment		
11.	Educational background		
12.	Employees can view their status and key dates.		
13.	Employees can view company property assigned to them.		
14.	Employees can view EEO/19 information.		
	Employees can view job information including:		
15.	Job code and title		
16.	Date and time in job		
17.	Compensation		
18.	Supervisor.		
19.	Organizational levels		

	Requirement	Code	Comments
20.	Unlimited job history including change reasons		
21.	Unlimited performance review history		
22.	Unlimited salary review history		
23.	Licenses		
24.	Skills		
25.	Tests		
26.	Awards		
	Employees can view unlimited pay history including:		
27.	Net pay		
28.	Hours by code		
29.	Earnings by code		
30.	Deductions by code		
31.	Taxes by code		
32.	Direct deposit distribution		
33.	Employees can view current and previous year-to-date totals.		
34.	Employees can view and update their direct deposit distribution and set effective date.		
35.	Employees can download and print their W-2.		
36.	Employees can designate that the electronic copy of the W-2 is the only copy that they require.		
37.	Employees can enter time transactions.		
	Employees can view benefit information including:		
38.	Current benefit elections		
39.	Employer contributions by code		
40.	Beneficiaries and dependents		
41.	PTO accruals and balances		
42.	Cobra qualifying events		
43.	Participate in an electronic open enrollment		
44.	View all eligible plans		
45.	View the costs associated with these plans		
46.	Choose their benefit plan and coverage option		
47.	Request time off from their manager		
	Employees can update current benefits coverage based on the following life events:		
48.	New hire		
49.	Adding a dependent		
50.	Removing a dependent		
51.	Change in marital status		
52.	Change in address/location		
53.	Employees can view documents attached to their employee record.		
54.	Employees can view open jobs.		
55.	Employees can apply for open jobs.		

**SYSTEM ADMINISTRATION:**

Explain the delivered capabilities for a system administrator to manage self-service?

Can you have multiple system administrators?

What limitations would a system administrator have in managing self-service in a hosted environment?

	Requirement	Code	Comments
1.	Offers role-based security (system access based on an individual's role within the organization).		
2.	Offers control over which values a user may select from when changing employee data (e.g., user is allowed to assign a certain number of job or department codes).		
3.	Offers the ability to copy roles when creating them.		
4.	Includes built-in workflow.		
5.	Includes a Web business rules feature that enables administrators to view and edit entries in code and description tables.		
6.	Includes a company communications posting feature that enables you to make company information available 24 x 7 to users via the Web.		
7.	Includes the ability to upload and securely share documents such as Microsoft Word documents, Excel spreadsheets, and PDF files.		
8.	Offers a page linking tool that allows users to create hyperlinks from your portal to external Web sites, other products or other Web pages (e.g., link to your benefits network).		
9.	Includes the ability to designate whether page links will appear inside the product framework or be launched in a second browser.		
10.	Includes the ability to customize the color scheme for your Web pages.		
11.	Includes the ability to re-brand the Web pages (i.e., use your own logo).		
12.	Includes the ability to add your own menu items and Web pages, and still be contained within the system's security framework.		
13.	Includes the ability to establish user-defined fields on Web pages.		
14.	Offers the choice to display or not display user-defined fields on employee Web pages.		
15.	Designates different levels of ability to manage system administration activities, from a super user with all rights, to users with lesser degrees of system administration access.		

	Requirement	Code	Comments
16.	Generates data-driven user names and passwords to increase the options for creating Web user login names and default passwords.		
17.	Allows you to view user login activity.		
18.	Adds non-employee users (e.g., IT support, auditors) as system users.		
19.	Activates new Web users automatically or manually.		
20.	Terminates employees' Web access inactivated automatically or manually.		
21.	Resets user passwords.		
22.	Requires strong passwords (case sensitive).		
23.	Requires that passwords expire based upon a number of days designated by the system administrator.		
24.	Requires that passwords for a given user are always different by maintaining password history.		
25.	Stores and displays password hints to help remind users of their passwords.		
26.	Uses a mass password reset to change the default password for one or all users.		
27.	Ability to secure at a field level.		
28.	Ability to audit who has viewed/changed items in the system.		
29.	Can the system establish single log on for all components of system?		

**WORKFLOW:**

Describe the workflow capabilities delivered with employee self-service.

Is the workflow part of the employee self-service application, or is it delivered through a third party?

Please describe the workflow setup including where custom programming is required. Do you supply any predefined workflow processes? If so, how many are delivered as standard? How much flexibility does client have in building workflows?

Can you have multiple levels of approvals for your workflow?

Ability to configure notifications upon hire/term via both email and APIs to enable automated business workflow orchestrations.

What tools are available to enable workflow in your system?

Is there any limit to the number of approvals an action can go through? Can there be different workflow/approval paths based on reason or if/then else logic of a change (e.g. over threshold, level of person requesting the change)?

	Requirement	Code	Comments
1.	Provides built-in approvals for a hierarchy (multiple levels) of approvers.		
2.	Provides for approval by role, where anyone who is assigned the role can approve incoming requests.		
3.	Allows the re-allocation or delegation of tasks from one approver to another.		
4.	Allows the assignment of observers and e-mail recipients to workflow processes.		
5.	Automatically send e-mail notices to approvers to inform them that they have a request that requires attention.		
6.	Automatically sends e-mail notices to the initiator of a request to let him/her know it has been approved.		
7.	Allows users to view outstanding workflow transactions in various states such as pending or complete		
8.	Allow out of the office delegations to automatically manage workflows during an individual's absence		
9.	Allow users to cancel pending workflows (e.g., when an employee leaves the company).		
10.	Provides wizards to walk managers through work event processes.		
11.	Uses audit trails to capture all modifications to employee information.		
12.	Captures the date and time when a request was approved.		
13.	Captures who approved a request.		
14.	Captures approver comments associated with a request.		
15.	Performs real-time updates to employee information.		
16.	Allows users to make date-sensitive changes, which are applied on the desired date.		
17.	Allows users to view summary statistics about all workflow activity.		
18.	Allows workflow e-mail messages to be customized.		
19.	Displays warning and error messages to users in relation to requested changes.		

**REPORTING:**

Provide a brief overview of your reporting tools and how they are integrated with your HR and payroll system.

Does your system have point-in-time reporting capabilities?

[CompareHRIS.com](http://CompareHRIS.com)

Describe the ad-hoc report writer that is delivered with your software.

Describe your point-in-time reporting capabilities.

Describe your ability to create workforce alerts (e.g. e-mail reminders, reports).

Describe any limitations creating online web reports? (e.g. formatting, fields, tables)

Do hosted clients and non-hosted clients have the same ad-hoc and web reporting capabilities?

Can the system support links to other websites?

Discuss how a non-technical user can obtain reports from the system without assistance.

	Requirement	Code	Comments
1.	Provides standard report capabilities.		
2.	Provides ability to schedule standard reports.		
3.	Provides access to unlimited years of check and schedule history.		
4.	Provides flexibility for defining selection criteria, data ranges, sorting and grouping options, and report output enabling users to tailor information to their specific needs.		
5.	Provides ability to set up and run batch reports.		
6.	Provides ability to access reports area from within the system.		
7.	Provides user-friendly, graphical user interface for accessing and running reports.		
8.	Provides point-in-time reporting capabilities.		
9.	Provides integrated ad hoc report writer.		
10.	Generates reports on all fields that exist in the data dictionary.		
11.	Allows for incorporation of graphics such as logos.		
12.	Provides easy-to-use report catalog; user is not required to understand the database design.		
13.	Presents data in a way that makes it easy for users to navigate within a database and assemble reports.		
14.	Provides ability to change field names.		
15.	Provides "open" system so that it can be used with other report writer tools.		
16.	Provides managers with standard pre-formatted reporting functionality.		
17.	Managers can run reports on live data		
18.	Managers can select report criteria at run time		

	Requirement	Code	Comments
19.	Access to reports is based on a manager's role (filtered security setup).		
20.	Data on reports is filtered by the manager's security (filtered security setup).		
21.	Report results can be stored		
22.	Managers can view and reuse a previously stored report		
23.	Managers can select a report sort order		
24.	Manager can select a report group order		
25.	Manager can select report page breaks		
26.	Managers can set expiration dates for reports		
27.	Managers can output reports in PDF format		
28.	Managers can output reports in Excel format		
29.	Ad hoc Reporting from a Web browser		
30.	Ad hoc reports can be scheduled		
31.	Reports be run while managers are in other parts of the system		
32.	Managers can store and access previously run reports		
33.	Managers can create custom reports		
34.	Reports can be assigned an expiration date for automatic purging		
35.	Does the system have the ability to export reports in a format that may be sent to recipients electronically without manual reformatting?		
36.	Can letters be generated as well as mailing labels in multiple formats directly from the system?		
37.	Can the system perform calculations within reports such as Turnover and Retention rates for a specific time interval?		

**DATABASE:**

What databases does your application support?

Describe the enterprise's responsibility in maintaining and managing the database(s).

Does your system allow backups with no downtime? Does it allow for backups to be unattended? When are backups completed i.e. time of day?

**SECURITY:**

Describe the proposed system's Application level security.

Does your application use a secure connection if hosted? If so, please explain the security model used.

Does the proposed application support single sign on?

Is your security roles based or user based?

How are the users and security roles administered?

What is the application authentication process? What methods are used to authorize users?

Can users have more than one security profile?

Does your application allow for customer defined ID and password methodologies?

Does your application allow for global security policies (e.g., number of invalid attempts before reset, time outs)?

How is validation for forgotten passwords processed when an employee locks out or has forgotten log-on information?

**CUSTOMIZATION:**

Describe the delivered tools and methods required to customize your application. Can we perform these customizations or do you the vendor need to modify the system?

Can we customize the fields in your application?

How are customizations preserved during product updates?

What is the effect of future upgrades on our customizations?

[CompareHRIS.com](http://CompareHRIS.com)

Explain the ability to configure data entry screens and to create new inquiry screens.

**IMPLEMENTATION:**

What is your process for effectively managing the implementation process?

What is the ratio of implementation and training to software license fee?

How long is a typical product implementation?

Describe the typical implementation project team. Who is the primary point of contact during implementation?

Describe your approach to identifying, managing, mitigating, and tracking of project risks. Provide a sample risk mitigation plan.

During the implementation process, do your consultants assist with process improvement and/or best practices? Provide examples.

[CompareHRIS.com](http://CompareHRIS.com)

How many employees from client are needed to support the project?

What is your process for moving from implementation to customer maintenance?

How long does implementation team stay with client before transferring to customer service?

#### **KNOWLEDGE MANAGEMENT:**

**Provide an overview of your training programs and delivery methods.**

Is there a test database utilizing real data available for future new employee training?

Where are your training facilities located?

Is there a cost associated with training for customers during or after implementation?

What ongoing customer training is available?

What training materials do you provide?

#### **CUSTOMER SERVICE/SUPPORT:**

Provide an overview of your customer support and maintenance services.

What is the cost of your annual maintenance plan?

Do you use your Web site as a mechanism to provide support to your clients? How is the Internet part of your support strategy? Please explain.

What is the experience level of your service and support staff? What is the average length of service in your support area?

How does your firm educate and train your service and support staff?

What technologies do you take advantage of to run your support organization?

What hours does your company provide service and support?

How many support centers do you have and where are they located?

Is there weekend or after hour support?

Is there an after hours emergency contact number if needed? Is there a charge for this service?

How often do you release new versions of your software?

Do you have any user groups (regional or national)?

[CompareHRIS.com](http://CompareHRIS.com)

Do we get change information prior to release?

Can we decline to upgrade to new releases?

What is the test process for new versions?

How do you determine and prioritize changes in your system?

What is the migration process in upgrading to new versions?
